## Midnight Lunch Menu Packages

We offer a wide range of options for midnight lunch. Normally, depending on your menu selection and guest numbers, our staff will come to your location, setup the midnight lunch buffet and leave for the evening, so your guests can enjoy the food at their leisure. We will make arrangements with you to drop off the supplies at our kitchen the following week. If you would like to have our staff stay or return to your location the evening of your event, there will be an additional staffing charge applied to your order.

We include disposables, heat-holding \& serving equipment and delivery (with-in Saskatoon) in our prices. These are not intended as a meal or meal replacement. If you would like to have any of these options as a meal please email us to discuss pricing.
